

**To the City Clerk:**

**Motions Made and Adopted by the Harbor Management Commission at the  
January 27, 2009 meeting:**

In response to a request submitted to the Harbor Management Commission by the River Fest Committee of the Greater Norwich Area Chamber of Commerce, the Harbor Management Commission approved a motion during its meeting of January 27, 2009 to support the Committee's proposed use of the docks at Howard Brown Park to conduct a special event called the Annual River Fest. That event would take place on Saturday, June 6, 2009. The Commission specified that its support was contingent on: 1) the River Fest Committee obtaining all other approvals that may be necessary to conduct the event and otherwise use the park; and 2) completion of the City's on-going waterfront improvements at the park as may be necessary to enable the proposed use of the docks. Further, the Commission specified that it may, in the future, request from the River Fest Committee additional information concerning the event.

The motion was introduced by Alderman Desaulniers and seconded by Commissioner James Paulsen. The vote was five in favor and none opposed.
